

MERLION HOMES
PADWORTH, RG7 5FR

The Homes

A collection of four, two bedroom, two bathroom apartments available on a shared equity basis. Situated in a newly built block of 9 apartments and finished to an excellent specification throughout.

Conveniently located just off the A4 Bath Road in Padworth, Reading forming part of the Coudray Mews development by Gable Homes.

Available to purchase with the Merlion Shared Equity scheme at a 75% share, the scheme is designed to help you get on the property ladder.

You will own 100% of the property and there is NO rent or interest to pay on the remainder.

Local Area

Located just north of the River Kennet and surrounded by open fields and countryside, Padworth in West Berkshire boasts an enviable spot. Conveniently situated between Reading and Newbury, residents here will be able to enjoy picturesque walks and access to country pubs, while benefiting from excellent transport connections by both road and rail.

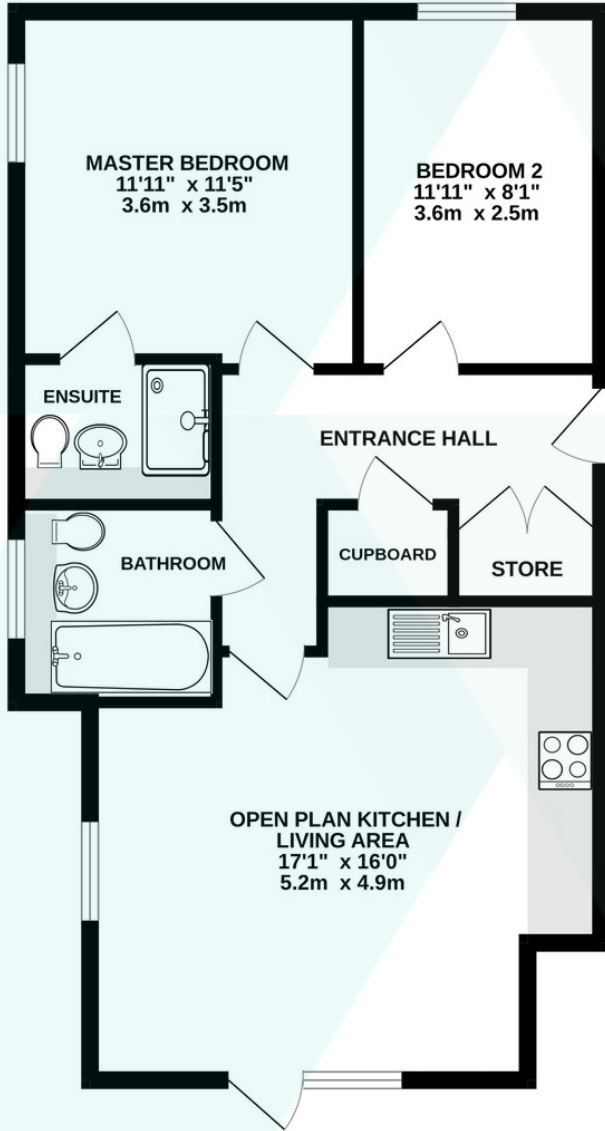

Aldermaston Station is less than a mile away from the development, with direct trains into London Paddington in just 49 minutes*. The A4 and the M4 are easily accessible, and buses also run to Reading, Thatcham and Newbury.

Neighbouring Aldermaston is a historic village renowned for its quaint countryside charm and views of the surrounding hills, while its centre offers access to a host of local amenities, including general stores, hairdressers and various antique shops.

At Merlion we understand that access to home ownership is only a pipedream to many and in partnership with local authorities we have developed a solution that truly provides you with an affordable and sustainable option to buying your new home.

Our shared equity model provides a far more affordable route into home ownership than many of the other home ownership products on the market. We will support you every step of the way through your purchase and we are here to answer any questions you may have.

What is shared equity?

Shared equity works by providing the home buyer with an interest free equity loan, which will form part of the deposit, for the property being purchased. The homebuyer then takes out a mortgage, as they usually would, on the balance of the property's purchase price.

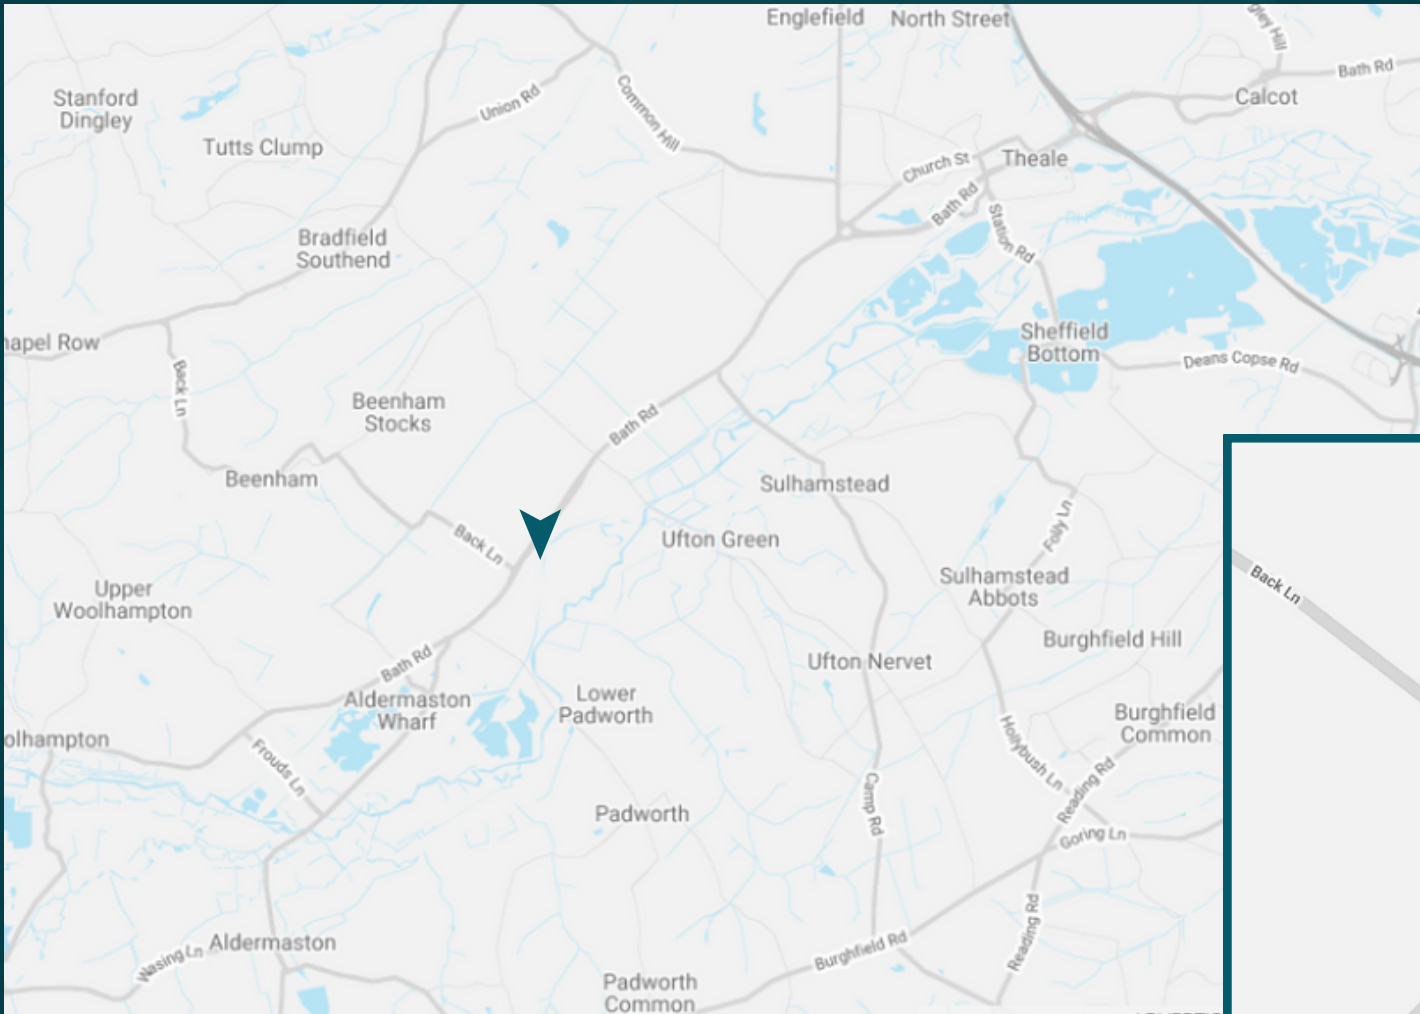

The property will belong entirely to the homebuyer, who should be able to access better mortgage deals, which they would not otherwise be able to.

Our Shared Equity scheme is designed to assist people onto the housing ladder and own a home with as little as a 5% deposit. At Coudray Mews, there are just four, two bedroom apartments available with priority being given to people who have a strong local connection.

Photography shows typical specification. Finishes, materials and landscaping may vary from those shown.

Floor plans and dimensions are taken from architects drawings and are given to the nearest 15cm and there may be projections into these. Please note these are for guidance only.
